TITLE OF EXHIBITION

Studio HENK presents customizable Dutch design

Project information

We are Studio HENK, a Dutch furniture design studio. We believe that furniture that is both functional and aesthetic, will guarantee a lifelong joy. Furniture design isn't just about creating a beautiful piece; it's about designing furniture for everyday life. It's about that small round table in the kitchen that becomes the place where you slowly start your day with a cup of coffee and a newspaper - the place where memories are made. Inspired by these moments, we've created a collection of accessible, timeless pieces of furniture for everyday use.

Founded in 2013 by two brothers from the Netherlands, Studio HENK embraces Dutch values such as functionality and durability. Therefore, all designs can be customised to perfectly fit your interior. Choose from a wide range of sizes, finishes, fabrics and colours and create a unique piece that suits your style. For example, pair a rectangular table top in oak wood with a Butterfly frame - the signature piece of the collection. The Butterfly is a refreshing frame that gives every table a unique expression.

For our collection, we only work with refined materials - from oak with the finest grain to high-quality steel and Kvadrat fabrics. By using these materials, we aim to create well-made pieces of furniture that will last.

Studio HENK's collection consists of all the types of furniture you need for your living and dining space - from dining tables, benches and chairs to sofas, lounge chairs, coffee tables and modular wall cabinets. The pieces of furniture work well in private spaces, but are perfectly suited for trendy bars, hotels and work spaces as well. Our designs have already been used for a number of large projects for companies like Shimano and Municipality of Amsterdam.
